

The NEOCLEAN Stick Cleaners are a dry cloth cleaning system that provides excellent cleaning performance for difficult to reach single fiber 2.5mm and 2.0mm based connectors, transceiver interfaces, and lenses.

The OPTIPOP P is a unique pipe cleaning tool designed to cup the ferrule. The OPTIPOP P pipe cleaner cleans the ferrule end face and the side edges of the ferrule.

Features

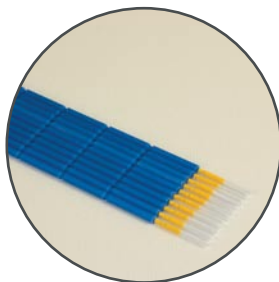

- Accommodates small form-factor duplex, single fiber connectors, transceiver receptacles and lenses
- Suitable for factory or field use
- Notched for easy customization
- Works in hard to reach areas

Applications

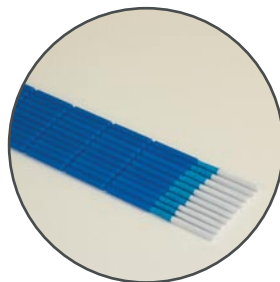

- Fiber optic cable assemblies
- Testing laboratories
- Industrial applications
- Scientific equipment
- Medical applications
