

MTP® Tx/Rx Interface

US Conec’s MT to MTP® Adapter interface incorporates the MTP® optimized adapter latching and interface features with a novel MT ferrule interconnect. The MT ferrule latching design can be used with or without the flat integrated pin keeper which employs US Conec’s industry hailed elliptical guide pin tip design. A simple tool makes it easy to insert or remove the ferrule to or from the MT to MTP® adapter interface.

Features:

- Compatible with MTP® and MTP®-16 connectors
- Minimal internal real estate functionality
- Mechanical coupling of pin keeper
- No epoxy required
- Same adapter functional as female or male connector
- Simple tool to insert or remove the ferrule
- With and without panel mounting clip
- Compatible with 9.8N and 20N connector configurations
